California State Parks Joins in Saturday, September 20 California Coastal Cleanup Day

California State Parks is joining communities and organizations throughout California to participate in the 19th Annual California Coastal Cleanup Day **Saturday, September 20**.

"We invite everyone to join us in this outstanding cleanup event," said State Parks Director Ruth Coleman. "We're particularly proud of our volunteers who return year after year to help clean up our parks and beaches."

Once again, State Parks is participating with other agencies and corporate sponsors in this statewide program to demonstrate that environmental stewardship is everyone's responsibility. Because California State Parks is struggling with greatly reduced funding, it is particularly important for volunteers to participate in the cleanup endeavor this year. Ongoing maintenance is a major cost to the department throughout the state park system and volunteers can greatly assist in keeping parks clean during these hard times.

To emphasize the importance of community involvement in tackling the state's litter problem, all Californians are invited to organize and participate in cleanup campaigns in their communities. Many of the activities are in conjunction with the California Coastal Commission's Coastal Cleanup Day program.

To participate, volunteers are asked to contact parks and beaches in their community or call the statewide coordinator of the event, the California Coastal Commission, at (800) COAST-4U or www.coastforyou.org.
